HOSTS & FEDERATIONS SUMMIT

Olympic Museum
Lausanne, Switzerland

17 - 20 June 2024 - Expert Supplier Brochure

INVITATION

You are invited to express your interest to engage with the major sports events community in Lausanne from June 17th to June 20th 2024.

“CONGRATS TO MEI ON THE SUMMIT... APPRECIATED THE ONE-ON-ONE MEETINGS... A GREAT WAY TO DIVE DEEPER INTO DISCUSSIONS WITH HOST CITIES”

Lara Marich
Tour Planning and Partnerships Senior Manager, Volleyball World

Vendor Ambitions

This event is designed explicitly for expert suppliers that are interested in working with rights holders, LOC's and host cities. Their needs are met by MEI engagement pre-summit to establish planning and delivery requirements. This, therefore, is the only event globally with this level of pre-planned engagement and, over the last 6 years, is the only time that brings the community together.

Deliverables

This Summit offers a variety of options to meet your specific needs, whether you prioritise one-to-one meetings, attend the main auditorium, or participate in bespoke Federation Briefings. With its unique “DNA,” the Summit provides a rich program of concurrent, highly focused opportunities aligned with your objectives. Beyond the core programme, networking and social events are crucial to success, with all delegates invited to 2 drinks receptions and the Gala Dinner. Sponsors and those upgrading from the Standard Delegate pass can also take part in additional networking events, such as an evening at the headquarters of an International Federation before the Summit, closed session breakfasts, bespoke meetings, and a post-Summit afternoon boat trip to Evian in France.

Participation Next Steps

Enclosed is some information from our previous edition and highlights of new initiatives and benefits building on the reputation of this internationally esteemed event. We highly recommend that each Supplier sends at least 2, if not 3, representatives to benefit from the concurrent and intense programme.

Commercial Terms

We have also included flexible commercial options which are price-locked until January 1st 2023. You can secure your budget and participation options with a 25% binding payment which also allows expenditure over 2 financial years.

New 2024 Initiative

For delegates who wish to focus on support specifically on the Football Community, 2 x social events and a day of content will be at the FIFA Museum in Zurich from the 19th - 20th June. This is a standalone event with separate terms but with a discount for those who wish to attend the Olympic Museum Host and Federations Summit and the Football Host Summit at the FIFA Museum.

Next Steps

We are currently accepting expressions of interest from those who want to participate in the programme or would benefit from pre-event evaluation and confirmation for one-to-one meetings. We'll be in touch soon to see if you want to secure your spot for the next edition, determine the results you want to achieve, and create a customised package of options that will maximise your investment.

“THE SUMMIT PROVIDED UNPARALLELED OPPORTUNITIES FOR DIRECT ENGAGEMENT BETWEEN INTERNATIONAL FEDERATIONS, SPORTS EVENTS HOST CITIES AND EXPERT SUPPLIERS”

Michel Cutait
Acting Secretary General, World Obstacle

ABOUT MAJOR EVENTS INTERNATIONAL (MEI)

The formation of MEI was inspired by the experience of its founder after working for an international corporation that delivered integration and supply chain managed solutions for major sports events.

This was followed by a period of learning whilst working for an Olympic sponsor, where it became clear that knowledge transfer was often overly focused on specific sports events, lacking support for a broader city-level perspective. Legacy and the visitor experience beyond venues were typically less well-planned and delivered.

In 2007, MEI was launched with a model focused on identifying the needs and objectives of Rights Holders, Local Organising Committees, Host Cities, and event commercial delivery companies. The common services provided include advising on strategy, identifying the right points of contact for managed engagement, and generally raising the market profile of individual organisations. This model is delivered through long-term retained contracts or project arrangements however central to the success of all clients is the bringing together of this iconic and specialist community via MEI's annual Summits, each with its own particular focus, and the recent initiative to run Regionally hosted summits too.

MEI Deliverables

Access cost savings/ new revenue	Opportunity Identification	Representation
Strategy Workshops	Engagement Continuity	Legacy Initiatives
City Mobilisation	Event Solution Innovation	Enhanced Market Profile

Delivery Model

KPI Development	Event or Regional Projects	Managed Introductions
Bespoke projects	Summits as a Catalyst

NETWORKING FUNCTIONS

QUALITY CONTENT

WHY MEI SUMMITS ARE DIFFERENT

During the June 2023 Hosts & Federations Summit, separate meetings were held between expert suppliers, Host Cities and International Sports Federations. These consistently revealed how important pre-arranged one-to-one meetings, networking and high quality content are to our delegates. The Summit is therefore designed to reflect these and provide them in greater abundance than in other Rights Holder-City events.

SUMMIT OVERVIEW

FOR PREVIOUS ATTENDEES

If you have participated in the Summits concurrent and intensive programme, you probably know that City's goals are more effectively accomplished when 2 or more delegates attend. This enables simultaneous participation in meetings, attendance at informative central presentations, and preparation and delivery of briefings.

ONE-TO-ONE MEETINGS

Pre-planned are a high priority for City attendance. These meetings are supported by MEI in the Meeting Hub. VIP Delegates have access to more meetings than the previous Enhanced Delegate passes, even though the number of meetings has also increased. The Head of Delegation at the City level can get assistance from other Enhanced delegates to have 6 meetings, and they can also attend privileged networking events.

FOR FIRST-TIME ATTENDEES

If you haven't attended an MEI Summit before, getting an Enhanced Delegate pass is the best way to learn about the support options available. This pass offers the most comprehensive access to potential support. We recommend attending the event with a colleague to ensure adequate coverage.

17 - 20 JUNE 2024				
	MONDAY 17	TUESDAY 18	WEDNESDAY 19	THURSDAY 20
